Dear Brieghe

I am writing to thank you for your recent letter.

The terrible loss of life, the innocence of those killed and the denial of truth makes your campaign a very important one. It deserves to attract the support from all.

I confirm that the SDLP supports the families and the campaign for an international, independent investigation into the Ballymurphy Massacre. The HET do not fulfil these standards.

Alex has kept me informed of how the campaign is going. Having recently become SDLP Leader, I would like to meet whenever convenient with the families.

I know that your efforts, dignity and determination are widely admired. I very much agree with this view.

Yours sincerely
